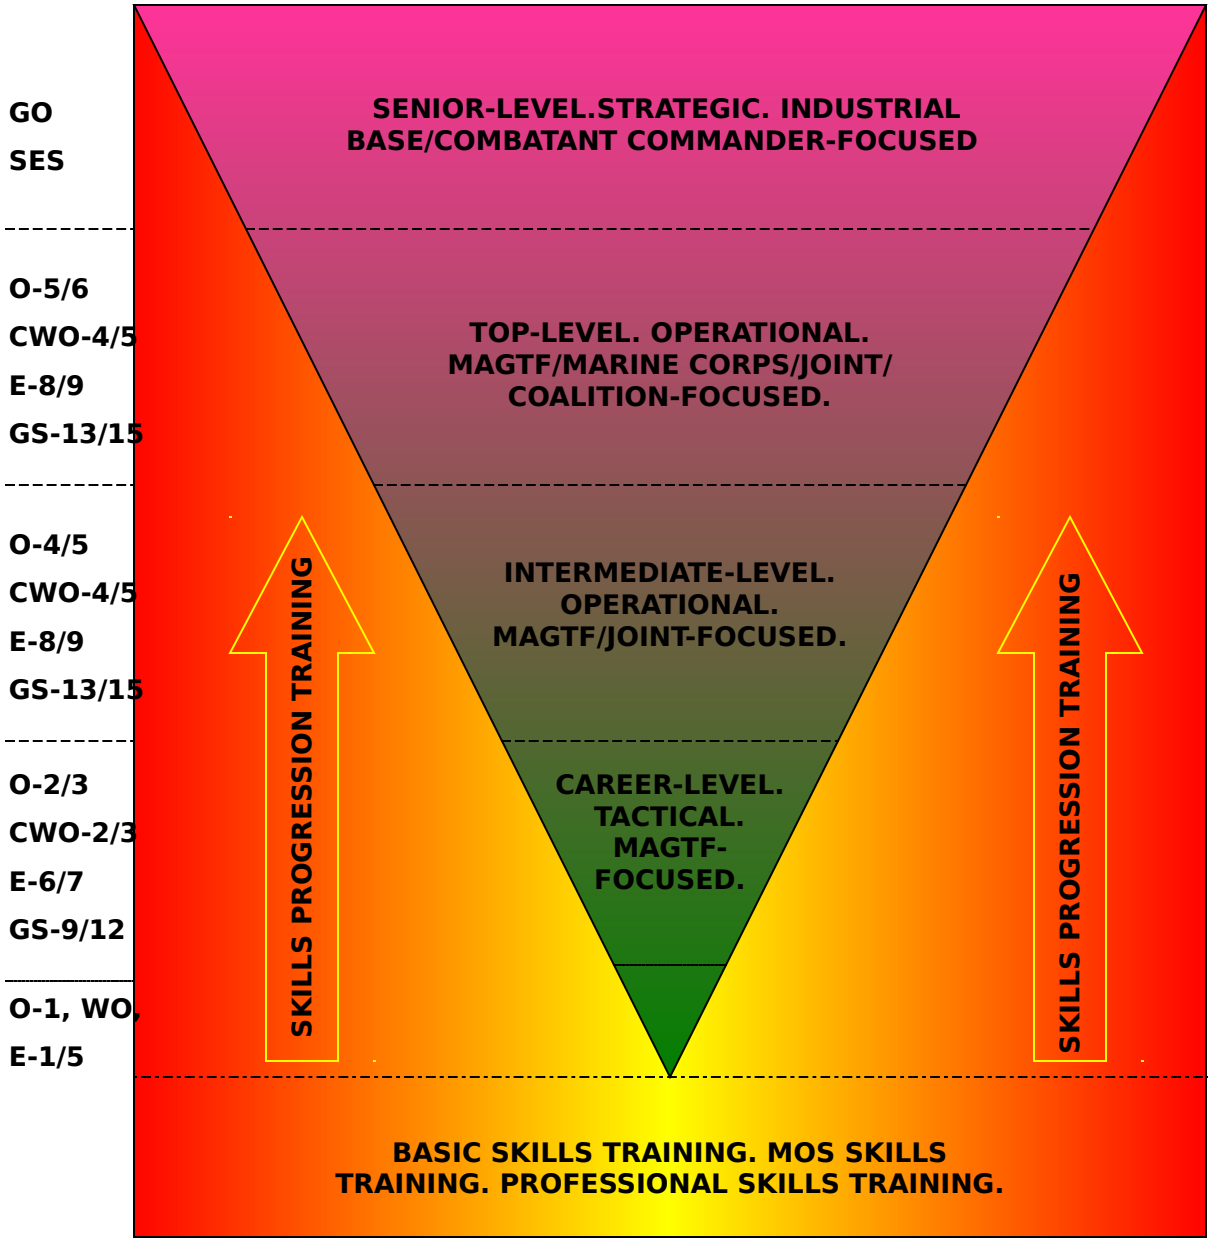
Logistics Educational Operational Advisory Group

Vision-Strategy Group: Develop a logistics career track based on the integrated logistics chain.

Logistics OA Institutionalization Group: Develop a program of action and milestones to institutionalize the logistics operational architecture into Training and Education Command (TECOM) programs and organizations.

Logistics Education Continuum Group: Develop a career length logistics education continuum for all Marine Corps logisticians.

The Logistics Education Continuum



The School of MAGTF Logistics

Marine Corps University

Mission

The School of MAGTF Logistics (SOML) develops, coordinates, integrates, and provides logistics education programs for officer, enlisted, and civilian logisticians in order to prepare them to meet the dynamic logistics challenges of present and future operational environments.

Educational Intent

- **To educate and prepare Marine Corps logisticians for increased levels of logistics responsibilities within the MAGTF and the Department of Defense.**
- **To develop logistics leaders at the tactical, operational, and strategic levels of war, and increase their understanding of the interrelationships among logistics and other warfighting functions.**
- **To increase the logistician's appreciation for emerging concepts and best practices within the Department of Defense, industry, and academia as they relate to the warfighting functions and MAGTF operations.**

To serve as the focal point for Marine Corps logistics education development and implementation.
